John Smith, M. D., at Elkhart.

The Elkhart *Monitor* contains the following:

To-day we are in receipt of an advertisement from Fort Wayne, for a patent medicine, which, if inserted, would occupy about two squares of our paper. Accompany it was the following proposition:

Dear Sir: If fou will run the enclosed in your paper six weeks, either among or following reading matter on the local page of your paper, I will pay you $2—providing that I receive an order for a bottle of my Celebrated Hay Fever Cure from your county. Next year I expect to advertise to the amount of thousands of dollars, and this is merely a test to find out the value of your paper as an advertising medium. If I receive more than one order I will add fifty per cent. to the above offer. Now, if you have faith in your paper you will no doubt insert the notice and allow me the test. Hoping our business relations may be pleasant in the future and that we may both be financially benefitted and benefit our fellow man, I remain,

Yours truly,
JOHN SMITH, M. D.,
Fort Wayne, Ind.

In reply we will state that the advertisement will be inserted in the *Monitor*—provided we receive ten dollars in money and twelve dozen bottles of Dr. John Smith's Celebrated Hay Fever cure. Next year we expect all hands in the office to have the hay fever six straight months, and this is a test case to find out the value of Dr. John Smith's Celebrated Hay Fever Cure as a health giving medium. If it proves to be efficacious we shall probably order seventeen car loads—next year. Now, if Dr. John Smith has faith in his Celebrated Hay Fever Cure, he will allow us the test. We have great regard for the welfare of our fellow man, and are perfectly willing to benefit them on the above terms. Hoping the business relations between ourselves and Dr. John Smith and his Celebrated Hay Fever Cure may be pleasant in the future, and that we may be mutually benefited, we remain etc., etc., etc., *ad libitum, ad infinitum.*

The Verdant Waterloo Man.

Last Monday THE SENTINEL made exclusive mention of the fact that a Waterloo man was relieved of his boodle on the Pleasant Lake excursion of the previous day. Concerning the theft the Bluffton *Times* says: "A young man named Fisk, residing at Waterloo, on the Fort Wayne & Jackson road, is not as wealthy as he was Sunday morning before starting on the excursion to Pleasant Lake. In the evening as he started to leave Pleasant Lake, young Fisk was relieved of his pocket-book, containing $105, while stepping on the train, by an unknown person. He felt the 'leather' leave its accustomed place of repose and turned around in time to see it in the hands of a very tony looking chap who had taken a notion of contributing the contents to himself. Fisk did not immediately make his loss known, but hunted up a friend in the person of Lou Johns, of Fort Wayne, in whose company he started out in search of the new possessor of his 'wallet.' In going through the train, they came across a crowd of 'too too' young men from Fort Wayne, and Fisk pointed out one of them as the fellow who did him up. The young man was somewhat taken by surprise, and finally convinced Fisk that he was not the person. Fisk was unable to find his man, and therefore mourns the loss of his hard earned money. His father is a merchant at Watetloo, and, it is said, is quite wealthy, and owing to this the loss will not be so greatly felt."

The peculiar action on the kidneys and urinary organs of asparagus is frequently noticed during the season. The old building, corner of Main and Calhoun streets, is razed to the first story. It will be replaced by a substantial brick building of four stories. It was expected the coroner would get in his work on the demolition, but no accidents are reported up to the present time.

Drs. Frothingham and Kingsley have not returned. Their old offices in the Aufrecht block, the rent of which has not been settled, have been leased to the long haired street fakir, "Red Syn," and his partner, where they receive more or less of those afflicted with the ills that flesh is heir to.

A Miss Krader, of Washington township, while ascending to the dome of the court house, fainted and fell heavily down the steps. Charlie Comparet rushed gallantly to the rescue, though it was observed he was unnecessarily long in the operation of chafing the young lady's hands.

Huntington county sold $46,000 worth of gravel road bonds yesterday. The bonds call for six per cent interest. Hon. Wm. Fleming, of this city, was the purchaser. Bidding was very spirited. From this it will be seen that surrounding counties are building a net work of gravel roads, still the people of Allen county prefer to tudge along on muddy roads.

The Law of Kindness.

It would be a blessing and a kinduess to poor, weak, nervous, debilitated suffering humanity, if druggists would stop selling the many vile purgative pills and cathartic compounds advertised for the cure of liver complaints. Although they afford temporary relief they weaken the digestive organs and compel a continued and increasing use of the same. Sufferers from dyspepsia and liver complaint do not need a cathartic but should use some true medicinal tonic that will strengthen the digestive organs and heal the diseased tisues of the stomach, liver and bowels. A prepartion of Yellow Dock, Sarsaparilla, Iron, Celery, Buchu and Calisaya has proven very efficacious as a permanent strengthener of the digestive organs. These ingredients all enter into the composition of Dr. Guysott's Yellow Dock and Sarsaparilla, a remedy highly recomended as a general health renewer.

Mr. Charle B. Chambers, of Xeina, O., writes: "I had many ailments. All the organs of my body were in a weakened state—lungs, liver, kidneys, heart nerves, etc. I doctored for this and then for that. I tried bitters, they failed. Dr. Guysott's Yellow Dock and Sarsaparilla helped me from the start. I am now as strong and healthy as when I was a boy.

Trial of a New Mower.

To-morrow afternoon, at 1 o'clock, a test will be made at the Hayden farm, two miles from the city on the Leo road, of the new Ganse mower, a machine invented and built in this city. It is earnestly hoped that our capitalists and others interested in the manufacturing interests of Fort Wayne will be present, as it is proposed, if the mower proves to be a success, which it certainly will, to manufacture it here on a large scale. 1t

To the Honorable Mayor and Common Council:

Gentlemen—Your Committee of the Whole would respectfully report that on the 18th day of July, 1882, they met at the Council Chamber and after careful consideration of the several matters referred to them agreed to recommend for your final action the following, viz: The construction of a main or district sewer of such dimensions as may be directed by the City Civil Engineer, commencing on Lasselle street and running northerly on Clay street to Main street, thence easterly and terminating in the Maumee river east of the bridge.

Also the construction of a 24-inch clay pipe sewer commencing on Williams street opposite lot 16, in Williams addition; thence west following the course of the present wooden sewer to Hoagland avenue; thence north on Hoagland avenue to Dawson street.

Also a brick sewer 30 inches in diameter from the termination of said 24-inch sewer to Melita street; thence westerly along the alley on the north side of Chute & Prince's addition to Fairfield avenue; thence along the south side of the Wabash railway to a point near the west end of Locust street; thence northerly across said Wabash railway and terminating in what is known as the "Baker street ditch."

Your Committee beg leave to refer the matter of the Mechanic street improvement back to your Honorable Body without recommendation. Respectfully,

C. HETTLER, Chairman.

FRED C. BOLTZ, Secretary.

To the Honorable Mayor and Common Council:

Gentlemen—I respectfully submit the following report:

1. In the matter of the petition of John M. Miller for a refunder of taxes alleged to have been paid under protest, I report that at first I thought he would be entitled to a refunder of $22 00, but after a full examination of the claim I am well satisfied that whatever taxes he paid, were voluntarily paid and that he is not entitled to a refunder for any sum whatever. Therefore, I recommend that his petition be not granted.

2. In reference to the claim of Judge Zollars and Ellison & Ninde, I report that I find that the case of R. D. Wood & Co. vs the City in the United States court has been tried and won by the counsel employed by the City, and that the only recourse left for Wood & Co. is an appeal to the United States supreme court. I find that they have accomplished all that was expected of them by the City and I report that according to the agreement made with them by the Finance Committee in my presence, their bills ought to be paid.

3. I have written the Gutta Percha and Rubber Co. that unless they replace the broken and defective sections of hose, as per contract, the City will withhold the guarantee fund left as security by the company. The contract time does not expire until September 11, 1882.

4. In reference to the matter of the petition of Matthias Lynch and others, asking for permission to lessen the width of Kansas street at a point in Witt's first addition, referred to me by the Chairman of the Committee on Streets and Alleys, I report that the Council have no right to grant such petition, as the street as it now exists conforms to the plat as laid out and dedicated for a public street by the owners.

I ask until the next meeting to report in reference to sundry claims for refunders and in reference to the new ordinance for repair of streets and sidewalks.

Respectfully submitted,
HENRY COLERICK, City Attorney.

First, concurred in; second, referred to the Committee on Finance; third and fourth, concurred in; fifth, that time be granted.

To the Honorable Mayor and Common Council:

I would respectfully suggest that in view of the proposed construction of a main or district sewer for the benefit of the southeastern portion of the city which will incur an expenditure of from $30,000 to $35,000, the main part of which will have to be expended before the parties assessable can be reached: that some provision should be made by which the benefits should be determined and the assessment list prepared before the final completion of the work, or as soon as the actual cost of the improvement is ascertained after the contract is awarded. I am satisfied that 10 per cent. can be saved by giving the contractor approximate estimates based on the final assessment, either for collection or to use as collateral in obtaining funds for material and labor.

Respectfully,
C. S BRECKENRIDGE,
City Civil Engineer.

Referred to City Attorney to give a legal opinion at next meeting.

Gentlemen—I would respetfully ask that a committee be appointed to assist me in making the assessment for the construction of the University street sewer, as the same will be fully completed before the next meeting of the Common Council. Respectfully,

Granted.

Andrew J. Langohr, administrator of the estate of John W. Langohr, asked for a precept against R. S Robertson, for grading and paving with cobble stone the gutter on Broadway along the west forty-five feet of lot No. 89, Rockhill's addition. Granted.

To the Honorable Mayor and Common Council:

Gentlemen—Mr. John G. Lehr is unexpectedly compelled to give his attention to his private business for some months, and therefore will be unable to make collections of delinquent taxes after the first of next month.

I have made arrangements to appoint Mr. John E. Robbins my deputy in place of Mr. Lehr to collect the delinquent city taxes on duplicate of 1881, the help heretofore reported to continue the same as with Mr. Lehr. I respectfully ask your consent to, and concurrence in, the appointment of Mr. Robbins as such deputy.

C. M. BARTON, Treasurer.

Granted.

To the Honorable Mayor and Common Council:

Gentlemen—John B. Koch was taxed on duplicate of 1881 with a lot and a small amount of personal property. As this stood on the duplicate there was nothing to lead any one receiving the taxes to suppose that it was not correct, or that the amount there charged was not all he should pay. He paid this tax as charged in due time, but we have since discovered that the personal property charged to him on the duplicate was not his, but should have been returned against another person, and that instead of twenty-five cents personal tax paid, as charged with his lot, he should have paid $6.80. He expresses a willingness to pay the difference between the tax which he has paid and that which he should have paid, but is unwilling to pay penalty. If he had not been taxed at all with personal in connection with the lot, there would have been some reason for the person receiving the tax to have interrogated him about his personal, and thus have been led to get the correct amount, and in case of this not being done, I should have paid the penalty myself and raised no question about it; but as the assessment as returned was such as to lead the party receiving the tax to suppose that all was right, I do not feel that any fault is chargeable to my office, and therefore, to save time and further trouble to Koch, make this report for such action as you may deem proper.

C. M. BARTON,
City Treasurer.

The Treasurer was instructed to receive taxes from said Koch without penalty.

To the Honorable Mayor and, Common Council:

Gentlemen—Your Committee on Printing respectfully report that the cost of running that deparment for the ensuing year will be $2,500.

Chairman Committee on Printing.

A young girl of Broadway is attracting much unenviable attention to herself by her predeliction for a married saloonkeeper.

Hollis Gillett and the female Miller went to jail yesterday, but finally Gillett secured bonds, and the services of S. M. Hench to defend him.

A man whose leg was cut off in a recent railway disaster on the Pittsburg was last night furnished a pass to his home in Valparaiso by the township trustee.

A noisy gang on Columbia street last night should have received the attention of the police. They tooted tin horns, howled and made themselves generally obnoxious.

There seems to be little doubt but that Judge Zollars will receive the nomination for supreme judge. All the moguls in Allen county politics will go down to work up a boom for him.

Auditor Argo and family leave tomorrow night for St. Louis on a week's visit to Mrs. Argo's sister, Mrs. B. W. McLain. Mr. Argo returns Monday to attend the democratic state convention at Indianapolis.

The county commissioners adjourned to-day. They refused to grant the petition of the city asking the county to pay the damages awarded the Hanna heirs, growing out of the Clinton street bridge disaster.

People who reside in the outskirts of the city complain of the early hour at which the postoffice is closed. They claim it impossible to leave their places of employment, eat supper and reach the postoffice before its close, at 7 o'clock.

Sixteen coaches, divided into two sections, left for Rome City this morning on the policemen's excursion. The gay coppers doffed their clubs and stars and unbent from their official dignity. It is estimated that a thousand people from this city are being entertained at the watering place today.

Last night, occurred the benefit of Master Charlie Beeson, the boy skater. The tent was thronged with the best society people, and Master Beeson is a considerable sum ahead. A feature of the affair was the appearance of Master G. W. Ewing, a skilful bicycle rider, who when at school in the east, recently carried off a prize for excelling in this healthful sport.

This morning as the Rome City excursion train moved out, Forepaugh's circus train lay side-tracked. The performers were slumbering and the windows of the cars being open to admit the fresh air, exposed a number of ladies and gentlemen in very airy costumes. Mr. Perry was present and his cheeks suffused with crimson as he unavoidably gazed on the display of anatomy. Several bald headed gentlemen, however, missed the train in their eagerness to behold.

Two brown and barefooted little girls called on Trustee Gaffney this morning, and with tears in their eyes pointed to their exposed feet, and told the sympathetic trustee that they had not been to Sunday-school for four Sundays, on account of a lack of covering for their pedestals. The little ones told a sad story about a drunken father and a heart-broken and destitute mother, and tender-hearted Gaffney was visibly affected, and nearly allowed the tears to start. He at once gave the little girls an order to buy shoes, paying for the same out of his own pocket, and they went away smiling through the rain which fell during their visit.

Accompanied by Officer Wenninghoff, the father of Henry Droste, the boy sentenced to the reformatory, visited him in the jail yesterday and elicited a confession from the penitent youth, who said that he had collected certain sums due his father, among them $20 from William Hilgerman and $15 from J. G. Thieme & Co., the clothiers. The young man wasted this money in rioting and dissipation. The sheriff has taken him to Plainfield.

The business men and property owners in the vicinity of the proposed Nickel Plated depot, petitioned the council last night that the road be allowed to erect the freight and depot buildings, because after examing the plans and specifications they found the structures would be valuable acquisitions to the business community. INVADING TRAMPS.

A Gang of Fifty of the Duffers Take Advantage of the Insufficient Police Protection and Commit Depredations in the West End.

The encampment of tramps who infest the west of the city and roost near the Pittsburg railroad bridge, has received large additions in the past few days, and this morning, emboldened by their knowledge that the excursion of the police to Rome City had left the guardianship of the city in the hands of only the marshal and his deputies, ventured from their retreat and calling at numerous houses on Jefferson, Wayne and Washington streets, insolently demanded food and drink, and in frequent instances money. At the house of Mr. Williams on West Washington street, a couple of ill favored and ragged whelps struck a little boy on the head with a heavy cane because he told them to get out. Marshal Falker was informed and arming himself with a revolver and stout cane went after the fellows and drove some six of them back to their nest. One fellow acted so ugly that the officer was compelled to draw his revolver.

People in the west end were notified so far as possible to lock their doors and draw a bead on the first suspicious looking character who presented himself, with the family shotgun. It is feared by the marshal that the fellows will gain courage and invade the residences in a body. Then the only way open is to shoot a couple of them.

The leader of the gang of motleys which seems to be a regularly organized one is a tramp know by the euphonious soubroquet of "Sweet Williams" and one of the meanest of bullet headed shorthaired devils.

A TALE OF TWO CITIES.

Ed. Eyanson Shot at by L. C. Mitten, for Seducing the Latter's Sister---A Columbia City Tragedy Suppressed by Relatives of the Combatants.

Last Saturday at Columbia City, a tragedy occurred which so far has been kept quiet on account of the respectability of the relatives of the parties concerned. Ed. Eyanson, son of T. J. Eyanson, proprietor of the the grain elevator and part owner of the woolen mills at Columbia City, has recently been devoting his attention to Miss Emma Mitten, of Huntington. Miss Mitten went to Columbia City July 4, to visit her brother, L. C. Mitten, a furniture dealer. During the day Ed. Eyanson called on Miss Emma, and after avowing his undying love for her, succeeded in accomplishing her seduction. The young lady afterward informed her brother-in-law, Dr. L. M. Linville, of her condition, and he at once set about to bring young Eyanson to terms of matrimony, but without success. Last Saturday L. C. Mitten encountered young Eyanson on the street and asked him to marry his sister, as he seduced her. Eyanson denied the accusation, and Mitten pulled a revolver from his pocket and shot twice at Eyanson, who in turn drew a weapon and shot Mitten, the ball lodging in his thigh. Mitten is now under arrest.

Miss Mitten is only seventeen years of age, and respectably connected. Her aged mother, on learning of her daughter's ruin, became despondent and is now lying at the point of death. Another son, John Mitten, residing at Decatur, passed through the city last evening, en route to his mother's bedside. Mrs. Mitten and her family are well known in this city.

Young Eyanson's family are respectable, and well known here where they have frequently visited.

The affair creates intense excitement at Columbia City, and it is believed that the end is not yet, as some of Miss Mittens relatives will avenge her ruin.

The trouble will shortly be aired in the courts, and rich developments are expected.

A YOUNG PRODIGAL

Applies to the Chief of Police for Aid--The Son of a Cincinnati Millionaire in Rags.

Last night as the chief of police was smoking his after supper cigar in front of the station, there hobbled up a young man whose clothes were decidedly seedy, and whose face was unshaven and hair unshorn. The young man was intelligent though and gave his name as Arthur Lawson. He showed letters to back his assertion that he was a son of the wealthy Cincinnati pork packer of that name. The young man claimed that he had obtained a large sum of money from his father and had been in the west on a three months debauch. He said he had just come from Chicago where for a week past he had lain in a state of stupifaction in one of the Chicago opium dens of [illegible]

dent he had been robbed of several hundreds of dollars. His excessive drinking and opium smoking had so dazed him that he knew hardly what to do, and acting on an impulse to get home, boarded a Pittsburg train. He had just enough money to pay his fare here. He stated that he did not care to call on several of his father's friends, among them Messrs. S. B. Bond, Chas. McCulloch, Fred Eckart and others, in this condition, but came to the chief to borrow $10 and would promise faithfully to return it on reaching home and bracing up. Capt. Diehl is not in the habit of lending money to tramps, even to millionaires in hard luck, and so offered to give the crushed young prodigal a note to Trustee Gaffney. This was declined, and Lawson went off, supposedly to interview some one more inclined to be plucked.

The above is only one of hundreds of similar cases where the chief is 'struck" for a temporary loan to get on with.

THE REPUBLICANS.

The "Sentinel" Man Pipes the Plans of the Weaker Political Vessel of Allen County.

A reporter of THE SENTINEL casually looked about him this morning to ascertain what our republican brethren propose to do at their assembling together Saturday. Mr. Robert Stratton thought that the convention would be willing to "go shares" with certain independent aspirants for office, if any presented themselves, as they have not yet done. Otherwise he believed the convention would put in nomination a straight ticket, and if men could be found willing to waste time sufficient to make a canvass, every office would have a nominee.

Col. Robertson was not positive that a full ticket would be placed in nomination, but was confident that there would be "no water" in any of the nominations which would be made.

The reporter found out the names of some of the gentlemen who would not object to go through the farce of a nomination. For sheriff, Messrs. Wm. Schiefer and John Jacobs are mentioned. For auditor, the name of Henry Hilbrecht is this morning much discussed. For the office of criminal judge, W. H. Withers, Irvin Stratton and H. C. Hanna are willing to contend. Geo. Fry is mentioned for the nomination as recorder. Robert Stratton for senator, and D. N. Foster, 'Squire English, of Hoagland, and J. B. Harper for representatives, are alluded to at this stage of the game. For commissioners, W. H. Harter, of Springfield township, and Calvin Anderson and W. H. Bryant, of the city are named permanently with possibly Sol Bash. Both factions of the party will contend as usual and the bad republican blood will be stirred up as before. We are glad to learn from all sources that our republican friends will heartily support Judges Worden and O'Rourke, and that the party esteem it a privilege to cast an undivided vote for them.

Such is the poor system of organization prevailing among the republicans and so torn asunder are they by quarreling factions eager for the only offices they can get, namely those of government patronage, that there is very little interest betrayed by the party in county politics which will as usual be virtually allowed to go by default.

Disease is an effect, not a cure. Its origin is within: its manifestations without. Hence, to cure the disease the cause must be removed, and in no other way can a cure be effected. WARNER'S SAFE KIDNEY AND LIVER CURE is established on just this principle. It realizes that

of all diseases arise from deranged kidneys and liver, and it strikes at once at the root of the difficulty. The elements of which it is composed act directly upon these great organs, both as a food and a restorer, and, by placing them in a healthy condition, drive disease and pain from the system.

For the innumerable troubles caused by unhealthy Kidneys, Liver and Urinary Organs; for the distressing disorders of Women; for Malaria, and for physical derangements generally, this great remedy has no equal. Beware of imposters, imitations and concoctions said to be just as good.

How many of these suits have we? Only about a dozen.

How long will they last? Can't tell; they all ought to be sold within a few days.

Then we have this same manufacturer's goods, a few suits of ash, trimmed with walnut, marble tops to dresser and wash stand and bevel German plate glass to the dressing case, at

PRESS REPORTS.

An Open Letter From Otto J. Doesburg, Proprietor "Holland City News," Holland City, Michigan.

It is with no small degree of satisfaction that I express myself as to the magical pain-killing and healing properties of Dr Thomas' Eclectric Oil. A bad cold settled in my side and back which affected my kidneys, and with rheumatism combined, I was suffering terrible pains. I tried remedies and our local doctors with but little relief. As a "forlorn hope" I tried Dr. Thomas' Eclectric Oil, and have used only half a 50-cent bottle and feel as well as ever I did in my life.

OTTO J. DOESBURG.

PREJUDICE OF THE PRESS OVERCOME.

For fifteen or twenty years I have been troubled with that terrible disease, catarrh; had lost my sense of smell and taste; also my sight and hearing were failing fast. Tried scores of advertised remedies, with no success, and finally resolved to overcome my prejudice and make one more trial, which I did with Thomas' Eclectric Oil. After using part of the first bottle I began to feel better, and the improvement rapidly increased, and now I consider myself nearly as well as ever. O. M. HOLCOMB.

Politeness in Children.

There is perhaps no grace so becoming in youthful humanity as true politeness. It is so beautiful that we look upon it with the same sort of delight that characterizes our contemplation of the sublime,

Youth is the best season in which to learn politeness, for there is scarcely any thing in social life so difficult to assume. If care be taken in the education of children they grow into a natural exercise of this function, for it is a function more than an art. Artistic politeness is what it becomes when learned in later life, when it becomes more the assumption of a part than the beautiful outgrowth of a proper state of natural feeling.

True politeness should be taught, and in such a manner, too, as to inculcate principles that should have their outward exhibition in a courteous demeanor. Much of our success in life, whatever our scholastic attainments, depends upon how we impress people.

There are men to-day, whose minds are ripe in scholarly ability, whose every action, word, or tone, even, repels and they fail. They cannot see why, but the secret reason is that they are impolite—discourteous. Their methods of address are uncultivated and their usefulness in a measure destroyed, all of which might have been avoided in youth.—*Burlington Hawkeye.*

Old Tin Cans.

The ingenious man or woman can find a dozen uses for the old tin cans that accumulate so fast. The most attractive articles made from them are bird houses, flower pots and stands.

For the first, the cans are dipped into a large pan of melted asphalt and then rolled in dry sand. This gives them a natural ground color, on which can be fastened, while the asphalt is still warm, the ordinary dry packing moss used by florists, wood mosses, short dry twigs, small cones and burrs, to give a picturesque effect. If the lid is still attached to the can by a bit of solder, it can be left for a door-step for the birds.

A single can covered with birch bark and ornamented with burrs, acorns, etc., makes a very pretty flower pot; two partly telescoped, with a portion cut out of the sides for the reception of the soil and plants, makes a miniature log; three rows, placed one above another by means of different sized boxes on a round table, makes a very pretty stand. The asphalt should be used liberally.

A Novel Wooing.

A handsome black walnut chamber-set was exhibited by a Paterson furniture dealer at Hohokus, New Jersey. It was much admired, and in a group of admirers were a young man and a young woman. He had been courting her for a long time, but he had never succeeded in getting his courage up to the point of asking her to be his. While admiring the walnut set he inquired, doubtless without any ulterior motive, "How would you like such a set as that?" The young woman promptly answered that she would be almost willing to be married if she could begin housekeeping with such furniture. "I'll buy it if you'll marry me," the young man said, with the air of one who had found a long sought opportunity. The answer was decisive agd business-like: "You can't close the bargain any too soon." The wedding invitations are already sent out.—*New York Sun.*

The importance of using good pure soap for the toilet, nursery, and bathroom cannot be overrated, inasmuch as the skin is particularly sensitive to the action of deleterious ingredients.
